State of Terror During Night of Gang Shooting

(BY A. P. NIGHT WIRE.) NEWPORT (Ky.) Aug. 4.—A state of terror all last night by three separate fusillades of shots, the heaviest of which happened just before dawn, the facts near the scene of all the shooting looked from their windows at new gangs of men firing at one another. More than 100 shots were exchanged, but it is not known that anyone was injured. The shooting happened after the mysterious appearance of motor trucks, the loads of which were transferred to waiting cars. It is believed the shooting resulted from a quarrel among bootleggers.

TOWNLEY TO APPEAL HIS CONVICTION

(BY A. P. NIGHT WIRE.) MINNEAPOLIS, Aug. 4.—A. J. Townley, president of the National League, will appeal to the U. S. Supreme Court his conviction on the charge of conspiracy to violate the Minnesota Sedition Law. The appeal will be made today by V. A. Day, counsel for Townley. The appeal will operate to suspend the ninety-day sentence imposed on Townley, his fellow-defendant, Joseph Hart, in a trial court and uphold the State Supreme Court ruling. The appeal, according to Mr. Day, is a matter of the law of the land.

GOV. HARDING ON DEFENSIVE.

Witness at Federal Reserve System Hearing.

Declares Situation is Going to Work Out.

Credit Policies the Cause of Stormy Session.

(BY A. P. NIGHT WIRE.) WASHINGTON, Aug. 4.—Credit policies of the Federal Reserve system continued under examination of a Congressional commission today in a continuously stormy atmosphere with Governor Harding of the Reserve Board, as witness.

"The Federal Reserve Board didn't create this financial depression," Governor Harding exclaimed. "It saw it coming and got ready to protect things, and people ought to be grateful it did. Now all we need is cessation of pessimism, which marks bad times as foolish; optimism marks good times. We all know how everybody was going crazy in the boom during the fall of 1919."

GOING TO WORK OUT.

"This situation is going to work out. There's no comparison between the condition a year ago and conditions today. Take cotton, with a low yield, and exports picking up. Banks are fully justified now in carrying loans."

"All we've got to do is to get out of everlasting pessimism, and quit saying everything is going to the dogs. Why, a man has to put up a good cheerful face if he wants credit. You can't talk to the banker like you do to the tax assessor."

Previously a sharp passage had taken place in which Representative Funk, Republican, Illinois; Representative Mills, Republican, New York; and later Governor Harding participated.

KEENLY DISAPPOINTED.

"I'm keenly disappointed," Representative Funk said, "because the reserve system has been challenged, complained of, criticized, and charged on the ground that it has discriminated against agriculture. And we've not heard one word from this witness." Representative Mills leaped to the fray asserting that the commission "had allowed John Skelton Williams, former Controller of the Currency, to make charge after charge against the Reserve Board," and that Governor Harding was entitled to common justice in the privilege of a detailed response.

Mr. Funk told Mr. Mills to "handle your affairs and I'll handle mine," while Chairman Anderson ruled that the Governor was within his rights.

"Has the Reserve Board called in farm credits?" Mr. Funk demanded later.

"No sir, it never has," Governor Harding retorted.

"How about the circulars of the San Francisco Reserve Bank?" Mr. Funk continued concerning the price of wheat in 1920.

"I never heard that before," Gov.

EVERYBODY'S BIG FRIEND NOW.

Fund of 271 Years Ago Buried With Hatchet by Iroquois and Huron.

(BY A. P. NIGHT WIRE.) PENETANG (Ont.) Aug. 4.—Friendliness existed today between the hereditary Indian foes, the Hurons and Iroquois, whose feathered chieftains buried the hatchet yesterday and smoked the pipe of peace in the presence of a great multitude gathered on the shores of Penetang Bay for the ceremonial celebration of the coming of the pioneer Champlain. The ceremony ended a feud that began 271 years ago. Chief Ovide Stou of the Hurons said to Big Chief Andrew Stata, leader of the Mohawk tribe of the six nations:

"Now, we go kill moose together, when they had puffed at the pipe of peace and buried the war hatchet beneath a huge red boulder."

Harding said, "Did it cause a break in the wheat prices?"

"It had some effect," Mr. Funk responded.

"The board has cautioned reserve banks not to issue circulars," Gov. Harding continued. "It's the job of a banker to look to the value of his collateral, not to do it in a quiet way. It is not the function of the Reserve System to regulate prices up or down, but to maintain credit."

In general, Mr. Harding said, "the attitude of the Reserve Board toward agriculture has been greatly misunderstood and grossly misrepresented."

THE WHOLE TROUBLE.

"The whole trouble with the reserve system in meeting agricultural demands is that reserve banks do not and cannot lend to individual borrowers," he added.

"The paper of borrowers must get into the hands of member banks before it gets to the system."

Giving the history of increases of reserve rates in 1919 and 1920, Gov. Harding asserted that Mr. Williams, one of its chief critics, had participated in the rulings. The ideal system, he said, would be to maintain redemptive rates just above market rates on money, thus avoiding inflation, and yet offering practically unlimited credit.

Legal limitations, he held, governed the board at all times and in the matter of credit policies ought and did center on twelve district reserve banks. "Curiously I have never heard a complaint from one bank in the Atlanta district which Mr. Williams charged had to pay 87 per cent on reserve borrowings," he said, "but the board, after lessening the rate of the extreme instances of penalties and charges which resulted from the progressive rates system, now no longer in effect, did order money returned to every member bank in excess of 12 per cent. The amounts were small, about \$20,000 in the United States and in an extreme Alabama case the total reserve was \$225,000."

Gov. Harding gave an explanation turned was \$225,000.

At a recent private meeting of the national council of the federation of British industries, which represents practically every important manufacturer in the country, the president of the federation, Sir Peter Rylands, made what is considered an extremely important statement on this question. The council decided to study the question further, leaving a final decision to the October meeting.

But the Times correspondent understands that British manufacturers generally are coming around to the view, first, that the present indemnity total is too high; second, that the making of payments depends on Germany's export trade will result in more loss than profit to Great Britain.

As the only practical alternative they believe, first, that the total should be decreased to a figure more or less corresponding to Prof. J. M. Krine's estimate, and, second, that Germany should pay only in "services" and goods which do not compete with British "services" or trade.

"PUSSYFOOT" TO VISIT INDIA.

American Dry Leader on Way from England.

Drys in Britain Jolted by New Liquor Bill.

Expect to Make Big Fight at Next Election.

(BY CABLE-EXCLUSIVE DISPATCH.) LONDON, Aug. 4.—Even the plausible, smiling "Pussy-foot" Johnson who sails for India tomorrow to tell the Hindus what a Utopian dry America is now, is unable to disguise the fact that the dries here have received a hard wallop in the new liquor bill just passed by the House of Commons.

When seen today "Pussy-foot," after a lot of hedging, finally admitted that the relaxation of the draft restrictions was "the best that could be expected under the circumstances. The bill is only a makeshift. It preserves some of the wartime gains."

GETS PROPHETIC.

Then he got a bit prophetic. "Of course," he stated, "the dries here expect to make a big fight at the next general election."

Such may be the intention of British dries but evidently "Pussy-foot" himself, imported more than two years ago as America's best dry bet and most persuasive prohibitionist, is not going to take much of a part in the preliminaries to this crusade because he is not returning to London until December and in January, is returning home.

The best that some British dry can say about the new liquor bill is "it might have been worse."

"Pussy-foot" had absolutely no prognostications to make about England going dry.

TALKS OF TRIP TO INDIA.

One reason he advanced for the government's action was that it had promised the liquor bill for two years and had to come across with something, as even the home dries were opposed to the idea of too much government control this long after the war. Of his trip to India he said:

"I am going out there on an invitation of Indian temperance societies just to tell them about results in America and to see what they are doing. I am not going there to try and make them dry. Why they had their own 'Pussy-foot' Johnsons 2000 years ago."

"It is the first prohibition country in the world, according to history. They were dry out there before America was ever discovered. Look at this translation from the Koran. It says that no man should drink intoxicants or go to prayers intoxicated."

It was said here in dry quarters today that both Lord and Lady Astor will be in the forefront of the next anti-liquor offensive. Lord Astor is credited with having framed a measure known as the Bishop of Oxford's "popular control bill."

It was in answer to a national demand that the government had made the concessions it has already made.

A Letter to Father and Mother about—

Palisades Beach

You want a comfortable summer home at the beach where mother and the children can be every day in the summer and father can be with them every night as well as week-ends. You want your own private front yard, which you can fence in, extending right down to the water's edge so that mother can keep her eye on the children from the front porch or through the front window. You want a place where you can entertain your friends and have little parties in your own private front yard—where wet dogs, water bags and beach crowds cannot come. You want a place that you can rent if you wish to at times and seasons when you do not wish to occupy it.

In addition to this comfort, pleasure and convenience you want a place that will be growing in value and making money for you every day you keep it.

You can get all of this at Palisades Beach, within thirty minutes of Wilshire and Hollywood or forty-five minutes from Seventh and Broadway. There is a very limited amount of such beach to be had, and the rapid growth of Los Angeles and environs is fast swamping all the beaches with crowds. The chance to get property like this is a rare opportunity from the standpoint of both pleasure and profit.

If you can get a place like this now for \$125 a front foot that the best business men with full knowledge of the situation believe will be worth \$500 or more a foot in five to ten years, you want it don't you? From Venice to Santa Monica the frontage is now worth from \$200 to \$1000 a foot and the lots are less than half the size of Palisades Beach lots, while the beauty and character of surroundings is incomparable.

Palisades Beach lots are at the most beautiful part of the Palisades, enjoying the beauty of mountains, crescent coast and sunsets, immediately in front of the highest class residence district, closely connected with all boulevards, and nearest to Los Angeles.

The size is 30x190, with electric cars and paved road in rear and five-foot cement sidewalk, water, gas, electricity, sewer and telephone lines to be put in at once next to the road. The front building line is 130 feet from the road, leaving 60 feet of front yard leading down to the water's edge. Restricted to residences costing \$4000 or more or apartments costing \$15,000 or more.

The price is \$125 a front foot, or \$3750 for a 30x190-foot lot. Terms are one-third cash and deferred payments extend over three years, with interest at 7%.

These lots will be on sale at the beach tract from 10 to 5:30 Saturday and Sunday. A number of the best-known citizens of Los Angeles and Santa Monica have already purchased one or two lots each.

Reservations may be made at either office or of the man on the tract.

DAILY TRADE TALK.

July Books Are Balanced; Economic Activity in Los Angeles Shows Seasonal Decline.

BY CHAPIN HALL.

July vital business statistics, compilation of which was completed yesterday by the public service department of the Merchants' National Bank, show declines in several lines of economic activity.

These declines are practically all attributable to seasonal conditions, and do not appear to affect fundamental resources. It may be safely asserted that the tone of local conditions is comparatively satisfactory, and that this city continues to be generally considered the nation's white spot.

Declines in July were quite general, as compared to June, and some losses were recorded as against the corresponding month a year ago.

Two factors combined to bring this about: seasonal dullness and a pathetic reaction to the national lethargy attending the readjustment of business and industry.

July brought about the first definite reduction in national conditions felt locally this year. This is quite remarkable and indicates the strong economic position this city holds.

Since last October the test has been on. At that time the rest of the nation began to evidence the crisis which had quietly developed after the market commenced to fall last May.

Several months usually being required for such movements to fully register in this city, the coming spring was looked to with some despondent apprehension. Month after month shaped and local statistics showed an approximate balance between losses and gains. Record building activities helped immensely.

Los Angeles became the recognized center of national prosperity and for months has commanded the eye of the nation in this regard.

For these reasons the falling off in July is anything but surprising, considering the reactionary influences which have surrounded this city for nearly a year and against which it has quite successfully supported itself.

Supporting the theory that national conditions greatly influenced important local declines in July is the fact that business of the port and stock exchange corresponded exactly with conditions surrounding those two factors from a national standpoint.

On the other hand the most important factor of distinctly local character, building, continued at a record level, totaling \$1,518,142. Periodical local reflection of national conditions can now be expected to some extent.

However, it is only logical that this city should respond much more quickly to improved national conditions than it did to the depression, and it is significant that the entire tone of national opinion at present favors a gradual improvement of the nation's economic affairs.

THE COUNTRY OVER.

NEW ORLEANS (La.) Aug. 4.—Tangible evidence of a revival of general business in this section has become apparent from increases in the volume of orders received by jobbers and wholesalers from interior points. For the first time in months there has been a disposition on the part of country merchants to buy for future needs. Buyers for the largest lumber concerns are here stocking up their commissaries to care for the increased number of men being employed. Increasing stability in prices for the chief agricultural products and increased demand for lumber are held responsible.

CHICAGO, Aug. 4.—The curve indicating business revival will ascend from this time on in this section, although not in an unbroken line. However, depression will be minor manifestations of the upward swing. Delegates to the national conference here are optimistic. They count on good crops to restore some measure of the farmers' buying power, with consequent improvement all along the line.

PHILADELPHIA, Aug. 4.—Salesmen for independent steel companies are hustling for orders in this section, with price concessions as inducement, and it is these orders which are enabling many plants to resume operations. Manufacturers of summer clothing have had a good season and stocks are well cleaned up. These manufacturers did not shrink in production, counting on the southern winter trade to take care of any surplus stocks.

PORTLAND (Or.) Aug. 4.—A mining revival is imminent in Southern Oregon. This summer prospectors are scouring the hills in the vicinity of Grants Pass, presenting scenes similar to those of half a century ago, when gold mining was the attraction. Some recent discoveries of gold have prompted the search for other minerals, and reports are current of finding deposits of cobalt, quicksilver, chrome, manganese, copper and platinum. Cobalt is the most worth while, \$2.35 a pound, compared with a few cents, before the war.

AMAZING GROWTH SHOWN.
Cites Startling Facts on Business Strides.
The Lion's Club Peak of Achievement is Passed.
"Froese" Credits Here, says Edward Elliott.
The rapid growth of Los Angeles is a fact that is becoming more and more apparent to the business community. The Lion's Club, in its annual report, has shown that the city's business strides are amazing. The report states that the city's business has reached a peak of achievement, and that the Lion's Club is now passing this peak. The report also credits "Froese" for his contribution to the city's business growth. Edward Elliott, a prominent business leader, has also commented on the city's growth, stating that it is a fact that is becoming more and more apparent to the business community.

SEEKING SCALP OF STEPHENS?
(Continued from First Page.)
tender in the race against Gov. Stephens.
"Gov. Stephens can count on Senator Johnson only so long as he seems to be a sure thing. Mr. Johnson appointed Mr. Stephens as Lieutenant-Governor against his will and has since freely remarked his regret for the act. Gov. Stephens has been in office long enough to build up a machine of his own, a large part of which is composed of remnants of Mr. Johnson's organization."
Should Mr. Johnson send out the word, Gov. Stephens would be a "gone goose," and doubtless the Governor knows this, as he is putting his reorganization scheme into effect as rapidly as possible. In the hope of being able to bluff Senator Johnson into standing pat.
WORKS FOR JOHNSON.
"Mr. Youngworth came belatedly, but vociferously, to the Johnson camp; when Mr. Johnson came out here, Mr. Youngworth's coat of arms was the League of Nations. Mr. Youngworth took off his coat, took it off literally, and worked and shouted for him."
Many of the Johnson meetings were stimulated into enthusiasm more by Mr. Youngworth's con- veying and shouting than by Senator Johnson's speeches, which may have pleased the Senator, but certainly left him under some ob- ligation.
All of which would seem to promise a protracted and grueling twelve or fourteen months of build- ing up and knocking down political aspirations, possibly paving the way for a successful last-minute get- away on the part of a dark horse.
CRITICIZES GOVERNOR.
(BY A. P. MORTIMER.)
SAN DIEGO, Aug. 4.—State Treasurer Friend W. Richardson, who has been mentioned as a possible candidate for Governor next year, and who is here on a trip through the State, gave out a statement today in which he criticized the ad- ministration of Gov. Stephens with regard to expenses. In his state- ment, Richardson said:
"Economy is the big issue before the people of California. In 1915, under Gov. Johnson, the total State expenditures were \$25,000,000. In 1919, under Gov. Stephens, they reached \$52,000,000. This year Gov. Stephens signed bills aggregating \$51,000,000, or an increase of 74 per cent, notwithstanding the fact that everywhere in public and in private affairs, there was an insistent demand for retrenchment. Elected three years ago on an econ- omy platform, Gov. Stephens has greatly increased the State expenses instead of decreasing them. There must be a reduction of the State tax burden now bearing so heavy upon the people to pay all these expenses of the method of the levy."
Wild Driver Given Ninety Days in Jail.
Found guilty of reckless driving, W. G. Alexander, 28 years of age, was sentenced to spend the next ninety days in the City Jail by Police Judge Chambers yesterday. Accord- ing to Patrolman McCaleb, who made the arrest on July 1, Alexander drove his automobile past a stand- ing street car on West Temple street and injured a pedestrian. Alexander entered a plea of not guilty.

MRS. LUNDBERG IS FOUND SANE.
Slayer Returned to Home on Six Months' Parole.
Physicians Rule Woman Not Menace to Society.
Malmberg and Lessing Cases Up Next Monday.
Mrs. Edith Lundberg is free to re- turn to her home under the care of her parents, although tentatively re- sponsible for six months to Pa- role Officer Mrs. Jene McCracken of the psychopathic ward of the County Hospital.
A jury recently found her not guilty of the murder of her sweet- heart, Linas Worden, on the evi- dence that she was insane at the time of the tragedy, and the District Attorney took action by which the Lunacy Commission should deter- mine if her present condition jus- tifies her being at large.
Five physicians yesterday con- curred in an opinion before the com- mission that Mrs. Lundberg is now sane, but that she is subject to at- tacks of depression which may in- fluence her again to attempt her own life, and therefore should be subjected to observation. It was al- so the consensus of opinion of the doctors that the patient is in no way a menace to public safety, and that better results will be obtained by allowing her to go on parole rather than to confine her in an institu- tion.
"You have suffered enough," said Judge Wyle, when announcing the six months' parole in charge of Mrs. McCracken.
MALMBERG HEARING.
The hearing of Gertrude Malm- berg, to be examined as to her san- ity by the Lunacy Commission, as a result of her asserted discharging of a revolver at her attorney, Wal- ter E. Smith, on February 1, will take place next Monday morning. She was to have been tried before Judge Houser on a charge of at- tempting to kill, but Mr. Smith after a conference with the court, swore to a complaint charging her with insanity, and the criminal case was continued by Judge Houser, until the 18th inst.
The insanity complaint recites that Mrs. Malmberg is laboring under the delusion that various deeds and cer- tificates of title have been forged or altered, that she has threatened to kill certain officers of the Title Insurance and Trust Company, and is not a safe person to be at large. She says that she shot at the floor to frighten her attorney, but that she had no intention or desire to kill him.
TO EXAMINE WOMAN.
Mrs. Malmberg will also be examined as to her sanity next Monday morning. Upon dismissal of the suit brought against her charging criminal syndicalism, she was arrested on a charge of insanity.
ON A SLAVE CHARGE.
W. A. Carruthers, wanted in this city on a charge of a violation of the Mann White Slave Act, is un- der arrest at Oakland, according to information received here yesterday. The woman in the case is Gladys Williams. Carruthers will be re- moved here for arraignment before U. S. Commissioner Long.

President Harding sticks to his policy, but has abandoned "ment." It is getting to be as much a user of odd words as has predecessor, Theodore Roosevelt.

Eric Mulligan, girl mother, accused slayer of her newborn, was acquitted by a local jury. The indoor sport of choking to helplessness should not be encouraged.

Oh, for a movie Belasco, could the little details, who will see on the hero writing with a fountain pen in a period hundreds of years before the invention of that instrument!

Hermosa Beach has had a dinner for the purpose of collecting about a stronger spirit of patriotism. The lesson set by Los Angeles being generally adopted to beach cities.

There will be no air patrol over the national forest of California this season. And it must be said in this city that the experiment of having a not an unqualified success, despite of the press agency.

Both Russia and Belgium are pleased because they have asked to attend the disarmament conference called by President Wilson. They both think the conference will be a success. The Allied and associated powers will be the President increase the V.P. list?

It is reported that the next of the week will be made in the effort will be made to elect one of that body who will vote on the bill to the State Legislature question of allowing "light" and beer to be sold. That seems fair enough.

Gov. Stephens appointed one to the Superior Court for the county. Will some Democrat mention the name of a suitable publican that President Wilson may have a judicial appointment? There may be a number of them. We cannot now recall their names.

THE AWAKENING.
Well, wife, this work I cannot do. Let's go out West and take up with you. You have the grit, I have the money. To see us through. We'll work together hand in hand. Just me and you.

We'll buy two horses and a wagon, harness, turkeys and a pig. And we'll soon learn about a farm. I'll plan right now. To make the turn.

Let's see! Now, wife, how many have you?
One, two, three hundred fifty two. Now that with what I have will be a good thing. We'll scrimp and save. My clothes are good, and yours are too. Now, wife, be brave!

We'll take the stove and range. The pots and pans and everything. The other things we'll leave in. Of Brother Lem. We'll get settled away out there. Then send for them.

I'm sure a farmer's wife you'll be. You'll learn to milk and churn and bake. While I shall learn to mow and to hoe. The corn to hoe. And spuds and grains that we'll take. I'll plant and sow.

And you will take the eggs to market. To trade for goods to make a good thing. You'll make the jam from fruit grown. For winter's use. And make fine quilts from old, worn, worn. Picked from the goose.

And after setting of the sun. With your housework and my churning. We'll take a stroll down by the stream. You on my arm. And we'll think life has just begun. Out on that farm.

Come, wife, get up the wagon. A dream it was, I might have been a fool to think we'd ever own a house and land. The turkeys, geese and chicks in the pen. The cow is named. **SAMUEL R. COOPER**

REVENGE FOR WILLIAMS II.

Boston Tennis Crack Hangs In on V. Richards.

Johnston Eliminates Young Morris Duane.

Four Teams Enter Semi-Finals in the Doubles.

BY FRED HAWTHORNE.

NEWPORT (R. I.) Aug. 4.—Revenge for his defeat at the hands of Vincent Richards in the Agawam Hunt Club tournament at Providence two weeks ago came to Richmond Williams II of the Longwood Cricket Club of Boston, when he conquered the national junior champion in straight sets at 6-1, 6-4, 6-3, in the fourth round of the Newport Casino's annual invitation lawn tennis tournament.

It was a different Williams who faced Richards today than the Williams who had gone down so easily before the sensational New York youth in the Providence match. In this second meeting Williams flashed the brand of super-tennis that he showed in winning the national title in 1914 and 1916; the tennis that had moved down the great McLaughlin on these same courts seven years ago and Johnston at Forest Hills, in 1916.

DOWNS DUANE.

Johnston eliminated young Morris Duane of Philadelphia, at 6-3, 6-4, 6-2, in the first round of the tournament. Williams defeated Nathaniel W. Niles of Boston by a score of 6-2, 6-0, 7-5, and Zeno Shimizu of Japan conquered Robert M. Kinsey of California by a score of 6-1, 6-4, 6-1, 6-4, in the three other matches in the singles.

Four teams went into the semi-final round in the doubles, the winners being Washburn and Williams; Johnston and Willie Davis; Wallace F. Johnson and Niles and Robert and Howard Kinsey. They will meet in the above order tomorrow afternoon, while in the singles Johnston will take on Washburn, and Shimizu will face Williams, who has already defeated the Japanese at Longwood last week.

SEMI-FINALS.

Newport Casino men invitation singles tournament, in which Williams defeated Richards in straight sets at 6-1, 6-4, 6-3, in the fourth round of the tournament.

TACOMA (Wash.) Aug. 4.—Three Californians and one Washingtonian remain in the running for the Pacific Northwest tennis championship, following today's matches on local courts. The semifinalists are Marshall Allen, Seattle; Irving Weinstein, Carl Gardner and Charles Stickney of San Francisco.

In the best match of the day Allen defeated Will Ingraham of Oakland, Oregon State champion, 6-2, 6-1, 6-4, Allen showing the better staying power.

Stickney had little trouble in eliminating the only local man left, Wallace Scott, 6-2, 6-1.

Carl Gardner beat Bob Peers of Vancouver handsily, while Weinstein had no difficulty in trimming Seymour Turner, Palo Alto.

Scott and Guy Tye of Tacoma remain in the doubles against the three outside teams, Weinstein and Ingraham, Allen and Taylor, and Gardner and Stickney.

Yachts Now Flocking Toward Santa Barbara for Huge Regatta.

With water craft of all sorts already under way from San Diego and San Francisco and with the Los Angeles contingent getting under way tomorrow, Santa Barbara promises to be the yachting center of the Coast for the week of August 6 to 13, when the first regatta of the Southern California Yachting Association takes place. And with this awful flock of boats entered in various events the judges are going to have a wild time figuring out handicaps, allowances, final times, who wins and all that sort of stuff. At any rate there are some strenuous days ahead, according to Cartoonist Day.

May Sutton is Victor at the Nassau Club.

(EXCLUSIVE DISPATCH.)

NEW YORK, Aug. 4.—In the sensational playing of 15-year-old Miss Helen Wills of California, came the feature of the second day of the women's metropolitan tennis championship at the Nassau Country Club today. Miss Wills did not win, but she forced Mrs. Marion Zinderstein Jessup, title holder, and second in national rank, to the limit of her speed and skill to prevent defeat.

HOLDS HER OWN.

A large gallery looked on in astonishment as the school girl practically held her own with the metropolitan champion, not alone in speed and versatility, but in court generalship and the decisive character of her strokes.

The contest was much closer than the score of 6-3, 6-4, shows, for in more than half of her losing game she held vantage point. It was well for Mrs. Jessup that at the critical stage she was a trifle steadier; it was all that won for her.

In the second round Mrs. May Sutton Bundy defeated Mrs. Edward V. Lynch, 6-0, 6-1.

In the third round Mrs. Bundy defeated Miss Alice Vail, 6-0, 6-0.

LADJINI TO WRESTLE NEBRASKAN BEARCAT.

Much enthusiasm has been created among the sporting circles of Los Angeles by the announcement that the match-makers for the Army and Navy tournament to be held on the 19th inst. at the Bicycle Stadium, Washington, and Hill streets, have secured a match between A. B. Ladjini, the Arabian middleweight wrestling champion, and Fay Jockish, the Nebraska bearcat. Ladjini is a champion of international fame, his career including a string of successful bouts throughout Central Europe and the Far East.

The entire proceeds from the tournament, which will comprise the best talent from the surrounding military posts, pitted against the prowess of the Navy, will be used to send delegates to the Minneapolis convention, in order that Los Angeles may land the Spanish-American War Veterans' championship for 1922.

DOLISH UP YACHTS FOR SANTA BARBARA RACES.

Newport and Los Angeles Harbor Club Craft Sail Tomorrow for Regatta at Channel City.

Los Angeles Harbor will be a deserted village at noon tomorrow. At that hour every craft holding membership in the Los Angeles Yacht Club that is at all seaworthy will haul up anchor and cast off for Santa Barbara, where the biggest regatta in the history of southern yachting will be held next week.

Chairman Algie Best, chairman of the regatta committee; Dr. Albert Soland, admiral of the Southern California Yachting Association fleet; and others connected with them have been doing all in their power from this end to make the regatta a monster success. And from Santa Barbara comes word that the Channel City folk are making elaborate preparations to take care of the visiting sportsmen. Everything possible that can be done will be done to make them comfortable.

NEAR THE BEACH.

The bungalow on the Hotel Ambassador grounds is to be the headquarters of the officials during the regatta. This is near the beach, and Chairman Best will have some official there to give information and instruction to arriving craft.

As the Newport Harbor Yacht Club boats are some sixty miles down the Coast from Los Angeles the boats will participate of an earlier start tomorrow morning than their rivals of the L.A.H.Y.C. They will get away at 9 o'clock, and will close up the mahogany deck today and flit down to Newport to get the Viking IV, flagship of the fleet, all slicked up for the dash to Channel City waters.

San Francisco's delegation of the sloop Mah Pe, the Ketch Shawnee and the schooners Leeward and Katandah, leave the Bay City today. The San Diego boats are due at Santa Barbara today.

Each batch of boats is racing up the Coast for trophies of one kind and another, and all craft are expected to reach Santa Barbara between noon and midnight on Sunday. Monday will be trim ship, get acquainted, schedule of racing arrangement and informal party day. Tuesday, Wednesday, Thursday and Friday the boats will participate in the regatta races. The big social event of the week will be the ball aboard the Samarkand on Friday night. A box-party show and other entertainment features are being planned by the Santa Barbarans.

Eagle Boat No. 34, in command of Commodore Woodbine, will leave the harbor at midnight tomorrow and will patrol the course during the regatta.

GOODY NUMBER.

Admiral Soland had a talk yesterday morning with Ray Thomas, vice-commander of the Los Angeles Motorboat Club, and the latter informed him there would be a goody number of motorboat speedsters on hand. It is expected that between forty and fifty of all manner of craft will be in the water.

Yacht club will be at Santa Barbara, assuming a regatta of quantity as well as class.

GRIFFITH PARK OUTLOOK ROSY.

Council Ready to Vote on New Golf Courses.

William Watson is Proposed as the Architect.

Advisory Board May Confer With Him on Layout.

BY PAUL LOWRY.

The Park Board didn't meet yesterday to discuss the rehabilitation of the municipal golf links at Griffith Park, but several worth-while moves have been interested in the movement to give this city a real golf course and have promised to leave no stone unturned until this purpose is accomplished.

That the City Council is aware of the city's need is indicated by the minutes of the meeting of July 21, which call for the building of two eighteen-hole courses, grass greens and turf fairways, and a temporary nine-hole course, and the hiring of William Watson as architect.

UNCOVERED.

This is an entirely new angle to the situation, brought to light yesterday by Clara F. Kamp, a municipal links well wisher. The Council has not passed on the matter, and at the meeting referred to the clerk was instructed to prepare a resolution to be voted on in the near future.

Kamp was pursuing the Council's minutes yesterday at the instigation of Robert F. Allen, Councilman, and peering carefully to see if there was a joker anywhere in the type-setting.

It is proposed to hire Watson for a sum of \$495 to lay out plans for two new courses (eighteen holes) and a nine-hole temporary affair, and he is to be paid a certain percentage of all money expended on surface construction work, and is actually spent in supervision, and is allowed a superintendent of construction to carry out his instructions.

MAY BE SOON.

In other words, if the Council votes to accept the proposition submitted at the July 21 meeting Watson will proceed with the plans for the new layout, and his word will be supreme.

In this respect it has been suggested that an advisory board be created to confer with Watson with respect to the trapping and bunkering of the course. Watson is noted for his rather severe holes, and this is something the Griffith Park folks want to get away from.

The municipal links should be no worse off than they are now.

THURSDAY MORNING.

ASKS HUGE SUM TO FOIL FLOOD.

Cronholm Requests Funds to Harness Colorado.

Division of Waters, Repair of Levee Held Vital.

Part With Mexico is Urged by Irrigation Chief.

(SPECIAL DISPATCH)

By the successful diversion of a portion of the flood waters of the Colorado River and the strengthening of the Ockeron Levee before the next flood season, the Imperial Valley, which is now a vast expanse of water, will be saved from destruction. This is the plan of the Imperial Valley Irrigation District, which has asked for an appropriation of \$275,000 for the purpose of strengthening the levee and for the repair of the Ockeron Levee. The district is now in a position to make the necessary repairs, but it needs the money to do so. The district is now in a position to make the necessary repairs, but it needs the money to do so. The district is now in a position to make the necessary repairs, but it needs the money to do so.

CHRONHOLM REPORT.

The report in part follows: "The situation in the Colorado River Delta and conditions behind the protective levee system during the recent flood cause me to strongly urge your immediate approval of the plan of the Imperial Valley Irrigation District, which has asked for an appropriation of \$275,000 for the purpose of strengthening the levee and for the repair of the Ockeron Levee. The district is now in a position to make the necessary repairs, but it needs the money to do so. The district is now in a position to make the necessary repairs, but it needs the money to do so."

WORK NECESSARY.

The strengthening of the Ockeron Levee is necessary to make an outlet for the river, without river training, that the river will not break through to the north of the Bee River delta.

"After the river has been turned south and the Ockeron Levee raised and widened, it will be necessary for us to undertake a program of river straightening along the Ockeron and C. D. levees, and to protect such river training or straightening by confining the channel between levees uniformly spaced."

"Following the completion of this, the next step should be to put the river back into its old channel. The cost of this latter, together with that recommended to be done at this time, is roughly estimated as follows:

"Diversion into the Pescadero country, \$175,000.

"Diverting channels for diversion to old channel 1,000,000 cubic feet of earth, \$275,000.

"Channel training, cut of the Ockeron levee, cut of the Bee River levee, cut of the C. D. levee, \$115,000.

"The existing parallel levees, twenty-foot top, 21 feet wide, \$14,000, \$264,000.

"Land for reclamation of levee, twenty-eight miles at \$12,500, \$350,000.

"Total, \$2,444,000.

"I think the board could well consider entering into some agreement with the United States Reclamation Service and the Mexican Government to the end that an understanding would exist whereby the cost for the ultimate straightening of the river back into its old channel and confining it there, would be provided in proportion to the benefits derived."

BODY OF WAR HERO WILL ARRIVE TODAY.

The body of Sergeant Arthur H. Cronholm will arrive from France today, and funeral services will be held Monday at 2:30 p. m. at the Imperial Valley Cemetery.

Sergeant Cronholm died Sept. 23, 1918, having been wounded on the day previous to his death in the Argonne. He was serving with the Third Hundredth Infantry, First Division, Battle of the Marne. He was employed by the Pacific Railway Advertising Company. He died at the age of 23 years.

Mrs. Ida H. Cronholm, 406 West Broadway street, is his mother; Mrs. J. E. Cronholm, of Oakland, Calif., and Robert P. Cronholm, of Huntington Park, and M. H. Cronholm, of Los Angeles, are his sisters.

Mr. and Mrs. Archibald Edes, who were married in the Century Cottage at East Hampton, L. I., July 23, will be at home to their friends in Los Angeles at the Hotel Darcy after the first of September. Mrs. Edes was formerly Miss Sara Clark, daughter of Mrs. Arthur Dearborn Clark, who is known here as a visitor from Dallas, Tex., as also is her sister, Mrs. Herbert Adams, at whose home in Long Island the young people were married.

Enthusiastic golfers from all over the State will gather at Del Monte the latter part of the month for the California amateur championship over the Del Monte and Pebble Beach courses, September 3 to 11. These contests on the links are all accompanied by many social affairs. Among those who will attend from this part of the State are Dr. Paul Hunter of Pasadena, Edward H. Tuttle of Los Angeles and Harry D. Patten of Riverside.

At present Mr. and Mrs. Arthur Letts of this city are stopping at the Del Monte Lodge, and Mr. and Mrs. A. L. Gude and children are making an extended stay at Hotel del Monte. The tennis tournament over this week-end will provide an interesting event for the visitors on the Monterey peninsula. Among the stars who will participate are Maurice McLoughlin and Eleanor Tennant.

Dr. and Mrs. Forney E. Burt have returned from six weeks' vacation in Portland and San Francisco and are welcoming their many friends in their beautiful new home in Windsor Square.

In Florence, Italy.

Mr. and Mrs. Richard J. Culver of 1231 South Alvarado street are sojourning this summer in Florence, Italy. They write from there that they are planning to be home by the first of September.

Have Birthday Party.

Twelve friends of Mr. and Mrs. Frank L. Hull of Gordon Place, Hollywood, were asked to an informal dancing party Saturday evening to celebrate the birthday anniversary of Mrs. Hull. The rooms of the home were brightly decorated with floral decorations of rose pink and green. In keeping with this color motif was the candle-light table, centered with a mound of sunburst roses. Among those present were Mr. and Mrs. William R. Atkinson, Frances Mansfield and Frances Hull.

Marriage Announcement.

Rev. and Mrs. J. E. Storm announce the marriage of their daughter Ruth to Dr. Edwin Davis Ward, August 2, at their home, 725 North Hollenbeck street, with the father of the bride performing the ceremony. Members of the two families and Mr. and Mrs. W. J. Klimmick, who were recently married at the same place, were the only guests. Miss Storm was a student at the University of Nebraska until coming to the Coast during the war. She is a Normal School graduate and for nearly five years has been a kindergarten teacher in the County Hospital. Dr. Ward is a practicing physician of Los Angeles.

After a honeymoon journey of a month the young people will be at home to their friends in apartments in the city.

KUSTOFF MIND ILLNESS VICTIM.

(Continued from First Page.)

missioner of Pasadena, testified that he had known Kustoff for one year, had always found him to be honest and upright and believed that his actions were "simply those of a high strung, temperamental emotional Russian who really loved and really hoped for the possibility of a marriage with Mrs. Haupt."

Sitting on the board were Drs. C. A. Wright and T. B. Wright. The former first said that he considered Kustoff entirely sane, but changed his mind after the testimony of Hulet C. Merritt, Jr., which tended to show that Kustoff was a "manic" and that he should be kept under observation. Judge Weyl then gave his decision and warned the patient that if he broke his parole by attempting to get in touch with any members of the Merritt family he would be immediately brought before the board.

"There is no danger of my ever attempting to see her again. My eyes are opened," said Kustoff as he left for the ward.

Efficient Housekeeping

BY Laura A. Kirkman

A STAY-AT-HOME VACATION.

Of course it is ideal for every housekeeper to have a vacation trip in the summer time—two weeks, at least, away from the home—but many women cannot manage this, and for such I make the following suggestions:

It is possible to have a delightful stay-at-home vacation if the home woman will (1) Change the appearance of her home-interior as much as possible; (2) Use all the house-keeping short-cuts she can; and (3) Read fiction with a foreign setting, published lectures on travel, travel magazines, and any other literature which will transport her to far-off places and form a contrast to her everyday existence.

By "changing the home-interior" I mean, first of all, covering the living-room furniture with slip-covers. There is nothing that will give one such a cool, refreshed feeling as this. It makes one feel that one is in an entirely new room. I suggest that pale green calico be used as the material for these slip-covers, perhaps with a small white figure in it and possibly a note of black. The ordinary window-curtains should be changed and called ones go up to match the slip-covers. There need be no rugs on the floor, but a few cool, delightful barefoot cushions on couch or window seat may be covered in plain green.

Window boxes containing greenery or flowers will also add much to one's stay-at-home vacation. If you have an out-of-door garden interest your self in a flower bed divided into the colors of yellow, blue and red; there is nothing more delightful to the eye than a riot of color in a garden bed. Marigolds, coreopsis, yellow dahlias and cannas will supply the yellow; note; larkspur, iris, forget-me-nots, bachelor's buttons and asters, the blue; and poppies, red dahlias, sinias, and peonies the red.

Then, don't be afraid to be a little slack in your housework, as well as to use all the short-cuts you can. I have a friend who last summer took a stay-at-home vacation of this kind. She bought some extra chairs to use in the evening, and says that this practice made it possible for her to do a great deal of reading during the day, and save her strength during the hottest hours. She is a good housekeeper, and says that her yearling was very painful to her—but she forced herself to get used to it and consequently looked much younger at the end of the summer.

Do things the easiest way during your stay-at-home vacation. Do not consciously pamper yourself sometimes, for the tendency is to be mercilessly strict with ourselves. Instead of spending \$10 for train fare on a vacation, buy yourself an electric fan. Remember, you are saving a good deal of money by staying home, so you should spend a little money on luxuries which will make this expensive home-vacation a pleasure. Now is the time to buy yourself that piece of music you planned to have "some day"; now is the time to get yourself that lavender parasol you never quite dared afford!

(All inquiries addressed to Miss Kirkman, in care of the "Efficient Housekeeping" department, will be answered in this column in their turn. This requires considerable time, however, owing to the great number received. So if a personal or quicker reply is desired, a stamped and self-addressed envelope must be included with the question.—The Editor.)

Dr. Carter, in charge of the psychopathic ward, gave strong testimony in favor of the patient and said he believed him to be entirely sane. Dr. E. H. Williams expressed the opinion that while the patient was sane he believed he should be kept under observation. Judge Weyl then gave his decision and warned the patient that if he broke his parole by attempting to get in touch with any members of the Merritt family he would be immediately brought before the board.

"There is no danger of my ever attempting to see her again. My eyes are opened," said Kustoff as he left for the ward.

WHY

DOES PAPER CURL UP WHEN HEATED?

Although we are accustomed to think of a piece of paper as being entirely dry and free from water, the fact remains that there is a considerable proportion of moisture in every sheet, just as there is in all ordinary things—even in those which appear to be free from it. The application of heat drives this moisture off and the spaces which were formerly filled with this water are then filled with air, which is much lighter and less resistant to outside influences. The fibers of the paper, which formerly laid out flat in the form in which they were pressed, contract and tend to bring the different portions of the sheet closer together, thus causing the curled or wavy appearance which results when paper is laid in the sun or placed in front of a fire.

In addition, paper, like practically all other substances, contracts when it is cooled and expands when heated. But, owing to its broad, flat surface, all sections of a sheet of paper do not ordinarily become heated with the same degree of speed and the section which is first entirely dried out expands and draws itself away from the moist part, thus adding to the curling action.

OPEN YOUR OPTICS.

This is one of the simplest and most entertaining of observation games, interesting to seniors and juniors alike. It can be played anywhere, indoors or out.

One player is chosen to be optician. He thinks of some object within view of all the players, then he says, "Open your optical! Find something visible to you now; it can be spelled in a word of four letters." Then the first player may ask, "Is it 'wall'?" If the word is not "wall," the optician answers "Close your optics," and the player must keep his eyes closed without guessing again until the next round. The second player then hazards a guess, such as knob, post, shoe, door or book—anything within the vision of the players, including the features of the optician. The optician gives out another object word for the next round.

If the whole circle falls, all open asks, "What is the first letter of the word?" The optician gives the first letter, and the guessing goes around again. If the object is not easily guessed such as "cord" (curtain cord), the players may fall after the second round, then the optician answers in chorus, "All blind!" The optician repeats, "Open your optics!" and gives out another object word with a different number of letters, such as rocker, fence or bud.

WIFE SUES AGED MISSING MAN.

Separate Maintenance Asked: Woman Fears He Will Take Money.

Following the report that George H. Cole, 74 years old, a retired apartment-house owner, had disappeared after withdrawing a large sum of money from the First National Bank of Hermosa Beach last Monday, his wife, Jennie, yesterday filed suit for separate maintenance, charging desertion.

The Cole's were married July 31, 1913, and the date of the separation is given on the date he last left home. There are no children. The value of the community property is given as \$14,000.

Mrs. Cole, who brought suit through Attorney Peyton H. Moore, stated in her complaint that her husband withdrew \$11,350 in cash from the Hermosa Beach bank and \$250 in Liberty bonds. There is on deposit at the bank, \$9000 in a savings account, and \$150 in a checking account, and she says that her husband means to withdraw all of the money which is in his name.

According to Attorney Moore, the family of Mr. Cole fears that he is in the clutches of bunco men and the lawyer asserts the suit was brought to prevent the payment of any checks drawn by Mr. Cole on the Hermosa Beach bank.
